REGISTER NOW

WHY ATTEND?

BOUTIQUE, HIGH-IMPACT FORMAT

Intimate sessions designed to maximize interaction and peer-to-peer learning.

DISTINGUISHED FACULTY LINEUP

Engage with top thought-leaders from around the globe who are shaping the future of stone management.

HANDS-ON SKILLS COURSE

Master “Dusting” with next-generation lasers—ablate stones into tiny fragments on bench models.

SEMI-LIVE & CASE-BASED LEARNING

Review pre-recorded OR cases with faculty commentary, then apply techniques yourself under expert guidance.

LATEST TECHNOLOGY SHOWCASES

Explore the newest single-use ureteroscopes, lasers, and suction devices in dedicated demo stations.

EXPANDED ENDOUROLOGY TRACKS

Dive into mini-PCNL, supine PCNL, and endoscopic combined intrarenal surgery, faculty-led discussions, and a dynamic balloon debate on emerging treatment strategies.

10-YEAR ANNIVERSARY CELEBRATIONS

Special sessions, networking receptions, and surprises to mark a decade of innovation in ureteroscopic stone treatment.

WHAT ARE DUST ATTENDEES SAYING?

“Exceeded expectations—expert insights transformed my stone-treatment approach.”

“This was the most valuable CME course I’ve attended in years—truly outstanding.”

“Exceptional content and dynamic faculty–attendee engagement.”
